

Rates 2025-2026 Snapshot

Local governments collect rates from properties in their area to help fund the important services and facilities that benefit residents, homeowners, businesses, and visitors.

Your rates contribute directly to the services and facilities you use in your community, including public parks, local roads, streetscapes, waste collection, recreation and aquatic centres, community and sporting venues, libraries, and public events.

Here is a snapshot of some of the activities and services delivered by the City of Cockburn.
