Playground Equipment Renewals 2025-26

Community Feedback

To manage aging equipment, the City of Cockburn has an annual renewal schedule where end-of-life playground equipment is replaced with a new similar version. Three playgrounds were identified for the 2025-2026 financial year for playground renewal, with some additional parks to receive new additions!

In January 2026, the City invited residents to look at the design options for the playgrounds up for renewal and share their preferences with us.

**Bassett Reserve, North Lake -
Playground Design Option A**

**Coolbellup Community Hub, Coolbellup -
Playground Design Option B**

**Lopresti Park, Yangebup -
Playground Design Option C**

Further Information and Next Steps

Thank you to everyone who participated and shared their thoughts on the playground designs. The City will work to commence installation of the chosen playgrounds over the coming months. Residents living nearby to the parks receiving a playground renewal will be notified by the Project Team when installation is due to commence.
