Treeby Disc Golf Community Insights Snapshot

The Treeby Community Association is exploring grant funding from the City of Cockburn for a proposed disc golf course at the Calleya Community Garden precinct. Before any decisions are made, we invited community feedback on the proposed concept and location of the disc golf course, to understand support, and identify any opportunities, concerns, or considerations.

Key Findings

Most respondents were already regular users of the space, for walking, exercise and recreation, and spending time with family.

72% of respondents said they either play disc golf regularly or have played before. 21% had not played before but were keen to give it a go.

40% of respondents live within walking distance of the Calleya Community Garden precinct, a further 19% live elsewhere within Treeby, and 23% live outside of Treeby but within the City of Cockburn.

Concerns and Suggestions

While support was strong, respondents identified some things to consider if the proposal progresses.

These mainly related to:

- Shared use and safety – potential interactions with walkers, runners, dogs and other park users
- Course location and layout – including proximity to the dog park, Bush Forever area and overhead powerlines
- Environment – protecting trees and wildlife and avoiding discs entering the Bush Forever area
- Ongoing management – including litter, maintenance and how the space would be shared.

Respondents further suggested:

- Working with Perth Disc Golf Club to refine the layout
- Signage and information for new players
- Seating, shade and drinking water
- Bins and toilets
- Considering parking, maintenance and safety as part of detailed planning.

Next steps

Thank you to community members who were involved in the community consultation process for a disc golf course in Treeby. Community feedback will be provided to Treeby Community Association for their consideration. Next steps, as well as any outcomes or decisions about this project, will be published on the Comment on Cockburn website when available.
